## Product specifications

The Silentia fixed screen is a wide, solid panel with fixed mounting points on a wall or floor pole. It can be combined with another fixed screen or folding screen. The fixed screen is available in a wide range of lengths, heights, and colors.

### Material

The screens are made of high-pressure laminate or polycarbonate panels and a aluminum frame. The floor pole is made of aluminium with a steel plate with a polyamid cover. The connections are made of polyamide reinforced with fiberglass. The lightweight construction is user-friendly and optimizes stability and safety.

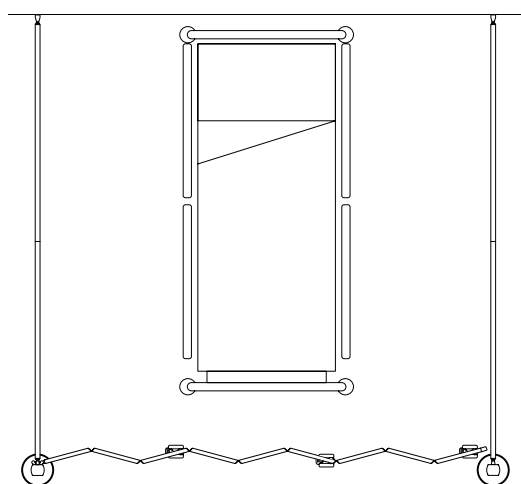

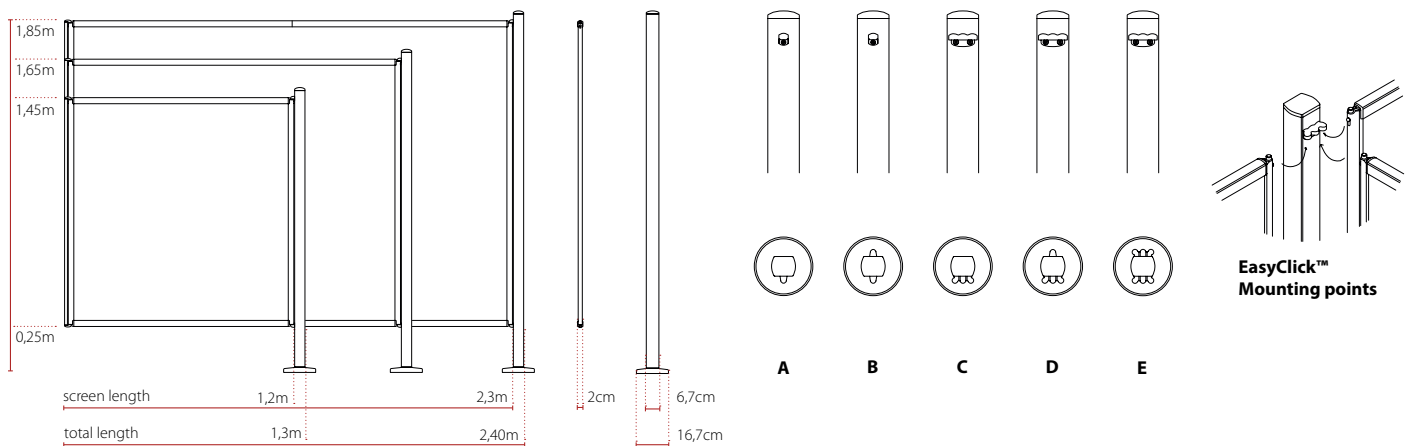

### Dimensions & sizes

#### Height

1,45m , 1,65m & 1,85m

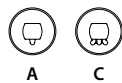

#### Length

1,3m to 2,40m

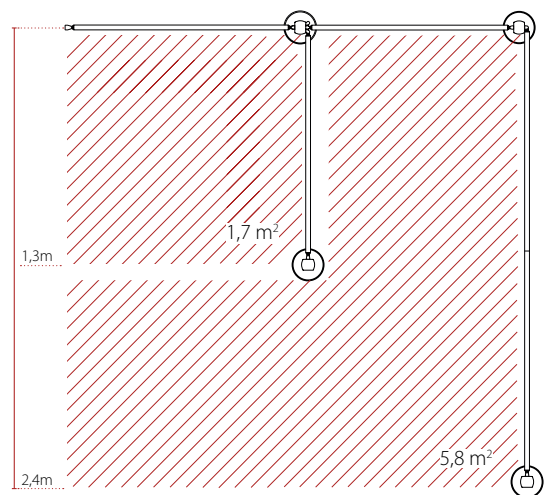

#### Use of screens example:

2 x fixed screens (2,4m)  
2 x floor poles (A+C)

1 x folding screen (1,75m)  
approx. floor area: 5,8m²

#### Fixed screen

choose custom total length

Length		1,3	2,40
Height	1,45	9.5 kg	14.7 kg
	1,65	10.7 kg	16.8 kg
	1,85	12.1 kg	19.1 kg

weight = screen + floor pole

#### Fixed screen Daylight

Daylight screens have defined sizes

Length		1,3	1,5	1,75	2,0	2,2	2,40
Height	1,45	9.5 kg	10.5 kg	11.6 kg	12.6 kg	13.7 kg	14.7 kg
	1,65	10.7 kg	11.9 kg	13.1 kg	14.4 kg	15.6 kg	16.8 kg
	1,85	12.1 kg	13.5 kg	14.9 kg	16.3 kg	17.7 kg	19.1 kg

weight = screen + floor pole

## Product specifications

### Care & maintenance

**EasyClean™** All products meet strict hygiene requirements and all surfaces are accessible for cleaning. The screens have hard and smooth surfaces that do not trap dust and withstand the majority of detergents that are used in healthcare.

### Handling/Use

**EasyClick™** Quickly and easily assemble and combine with additional screens. Attach the screen mount to a wall. Floor pole connector options create mounting points for up to three additional screens.

### Sustainability

Silentia focuses on developing long-lasting products that minimize our environmental impact. Since 1990, Silentia has been committed to improving patient care around the world with a safe, hygienic, and resource-efficient privacy system. [LINK TO SUSTAINABILITY PAGE](#)

### Recycling & disassembly

The screen is recyclable and all parts can be completely separated and individually delivered to a suitable recycling facility.

### Certificates / Listing

EN ISO 9001:2015

EN ISO 14001:2015

Listed as interior solution for the  
"WORLD'S GREENEST HOSPITAL"

### Tests

Silentia can provide fire tests, durability tests, etc. Please contact the Silentia sales team for specific information.

### Warranty

Silentia provides a 2-year warranty. Spare parts are available. Please contact the Silentia sales team for further information about warranty terms and conditions.

### Combination examples

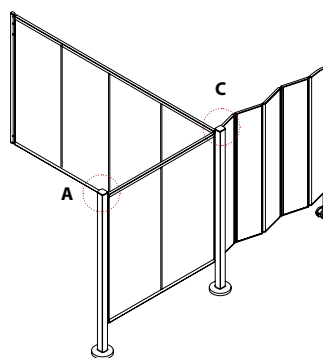

#### Folding screen

If checked, please fill in PFS 1.

For optimal privacy, combine a fixed screen and folding screen.

Example: A wall-mounted fixed screen mounted on floor pole **C** with a folding screen added at the desired length.

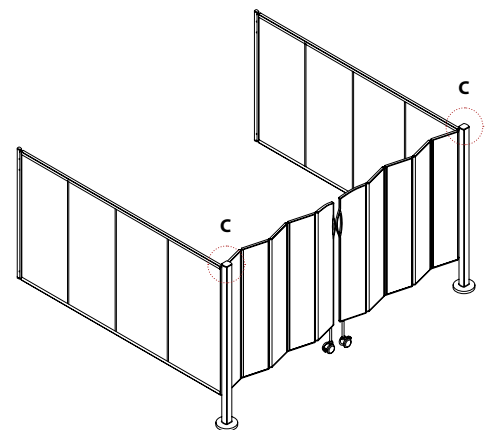

#### Folding & fixed screen

If checked, please fill in PFS 1.

To create two separate private spaces, combine two fixed screens with a folding screen.

Example: A wall-mounted fixed screen mounted on floor pole **C** with a folding screen added at the desired length and an additional fixed screen mounted on floor pole **A**.

#### Room

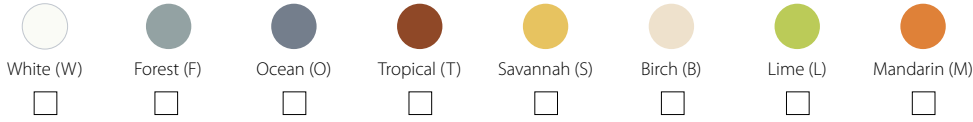

If checked, please fill in PFS 1.

To create a room with optimal privacy, combine two fixed screens with two folding screens. Example: Two wall-mounted fixed screens mounted on floor pole **C** with two additional folding screens of matching length spanning the opening.

## Design
